Dear Mr. Parrott,

Thanks for your note of the 21st, attached to your 2/29 letter to Mark Lane.

Don't expect any response from Lane. He replies only when he sees something for himself. I've hundreds of letters from people to whom he did not respond.

I'm now 79 and in impaired health, so there is a limit to what I can do. Where now is nothing I can do about any of the photographs.

While there may be an explanation of the flash of light you say you see in the Muchmore 8mm film, which you correlate with one of Morrmann's, something that caused it other than related to a shot, offhand I do not know what it might be.

Two men who have done much work with pictures, the Morrmann one in particular, are Jack White and Gary Mack.

I am sure they both stay pretty busy so I cannot speak for them. However, I think they might be interested in what you report.

If you would like to write them, Gary Mack lives at 4620 Brandin^gshire Place, Fort Worth, TX 76133.

Feel free if you'd like to tell Gary I suggested that you write him.

Thanks and best wishes,

Harold Weisberg
